EDUCATION

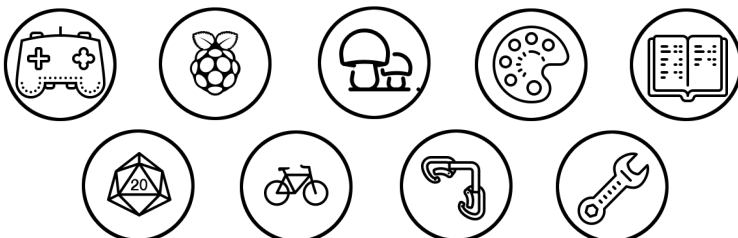

DEV MOUNTAIN

Feb - May 2018
Provo, Utah

UTAH VALLEY UNIVERSITY

Aug 2013 - Present
Orem, Utah

HOBBIES & INTERESTS

EXPERIENCE

D&D CAMPAIGN PLANNER

May 2018
React | Node | Sass | Rest APIs | Axios
This is a site I created for the popular game Dungeons & Dragons. It pulls data from a Restful API to display the monsters, spells and equipment used in the game and provides quick access to the information throughout gameplay.

BITEX MINING

Aug 2018 - Present
HTML | CSS | PHP | MySQL | JavaScript
I maintained the company's main site by adding new features, altering design, and connecting the site to the employee workspace through API calls.

BITDASH

August 2018 - Present
HTML | CSS | PHP | MySQL | JavaScript
Created a backoffice dashboard for the customers of BitexMining. Users are able to view and edit account information, view charts displaying real-time data on a selection of AltCoins, and view an ordered list of payouts. The application is able to take CSV file and populate the payout database accordingly.

BITSQUAD

August 2018 - Present
HTML | CSS | PHP | MySQL | JavaScript
In an effort to move away from using Podio as our employee workspace, my team built a simple, custom workspace to replace it. We incorporated a task manager, notes, messaging, and file storage with plans to add more features per department.
